MISSION STATEMENT

Southwestern Community College District, the only public institution of higher education in southern San Diego County, provides services to a diverse community of students by providing a wide range of dynamic and high-quality academic programs and comprehensive student services, including those offered through distance education. The College District also stimulates the development and growth of the region through its educational, economic and workforce opportunities, community partnerships and services.

Southwestern Community College District promotes student learning and success and prepares students to become engaged global citizens by committing to continuous improvement that includes planning, implementation and evaluation. The College District provides educational opportunities in the following areas: associate degree and certificate programs; transfer; professional, technical, and career advancement; basic skills; personal enrichment and continuing education.

VISION

Southwestern Community College District builds an exceptional community of learners and leaders who will promote social, educational, and economic advancement.

VALUES

Mutual respect

Shared planning and decision-making

Integrity

Accountability

Cultural competence and commonality

Scholarship and love of learning

Critical inquiry and thinking

Life-long learning

Practical and responsive

Southwestern Community College District Strategic Plan Priorities and Goals, 2016-2019

District Strategic Plan priorities and goals are utilized to help guide College decision-making and resource allocation processes. All funds allocated within the budget are associated with meeting strategic planning goals.

Priority: Student Access

Goal: Southwestern Community College District (SCCD) will promote a student-centered climate that provides equal access to educational achievement through collaboration that values diversity

Priority: Student Success

Goal: SCCD will promote a culture of academic success by creating a safe and supportive environment that enables students to achieve their educational goals

Priority: Teaching and Learning

Goal: SCCD will provide excellent instruction and develop a culture of independent thinkers and learners

Priority: Economic, Workforce, and Community Development

Goal: SCCD will contribute to the region's economic revitalization through resources that support the expansion of local business and industry and by expanding programs that generate new and vital workforce and business development opportunities for students and the community

Priority: Human Resources

Goal: SCCD will recruit, hire and train qualified and diverse staff, faculty, and administrators, demonstrating its commitment to providing an equitable and inclusive environment that supports professional growth and academic success of all employees and students

Priority Physical and Fiscal Resources

Goal: SCCD will act in a responsible, accountable, and transparent manner in budget and financial matters, and will actively and ethically seek outside sources of funding in order to preserve financial solvency

Goal: SCCD will provide that the College's design and infrastructure meets the evolving needs of all students, faculty, staff, and community in support of an innovative learning environment

Priority: Organizational Effectiveness

Goal: SCCD will provide effective implementation of organizational goals/strategies by cultivating and sustaining processes, systems, and culture that supports optimal organizational structure, capacity and capability

Goal: SCCD will meet the evolving needs of students, faculty, staff and community in support of an innovative learning environment

Priority: Institutional Technology and Research

Goal: SCCD will meet current and anticipated technology needs required to support and enhance the educational and workplace experience.

Budget Planning

The Southwestern Community College District (SCCD) is committed to a transparent and effective resource allocation process that is integrated with institutional planning, relies on its mission, strategic planning priorities, program review, and a realistic assessment of our financial assets and needs. SCCD plans for short-term and long-term financial conditions and makes decisions based on a well-developed process that is open and transparent.

The Planning and Budget Committee

The Planning and Budget Committee (PBC) is a standing committee of the Shared Consultation Council (SCC) and guides the process for integrated planning and resource allocation. This committee uses a shared planning and decision-making approach to develop a process for creating an annual operating budget for the College District and provides oversight for all matters related to planning and budget development. The Planning and Budget Committee is committed to a budget development process that supports the College District's Strategic Plan and Institutional Mission that is based on planning and needs identified through Institutional Program Review, and is data-informed regarding outcomes assessment in both instructional and non-instructional areas. The Planning and Budget Committee plays an important oversight role in the SCC's annual prioritization process for resource allocation, and the Planning and Budget Committee provides input to the College District's ACCJC Self-Evaluation Study for Standards:

Standard I.C—Institutional Integrity: (I.C.14);

Standard III.B—Physical Resources: (III.B.1; III.B.2; III.B.3; III.B.4); and

Standard III.D—Financial Resources:

Planning: (III.D.1; III.D.2; III.D.3)

Fiscal Responsibility and Stability: (III.D.4; III.D.5; III.D.6; III.D.7; III.D.8; III.D.9; III.D.10)

Liabilities: (III.D.11; III.D.12; III.D.13; III.D.14; III.D.15)

Contractual Agreements: (III.D.16)

The committee is also responsible for regular reporting to the SCC on the status of Institutional Planning and the Financial Resources portion of our Physical and Financial Resources Development, Strategic Priority of the Strategic Plan, as well as the overall financial health of the College District.

In alignment with the College Mission, PBC upholds the integration of SCCD's planning efforts ensuring that they are followed by budget development in order to provide the needed resources for student success; specifically, the PBC makes recommendations to the SCC regarding processes, timelines, analysis and outcomes for institutional planning and resource allocation.

The Planning and Budget Committee is comprised of the following membership:

- Vice President for Business and Financial Affairs
- 2 (two) ASO representatives
- 2 (two) Academic Senate representatives
- 2 CSEA representatives
- 2 SCCDAA representatives
- Confidential Employee representative

In addition, the Planning and Budget Committee includes the following resource members who do not vote:

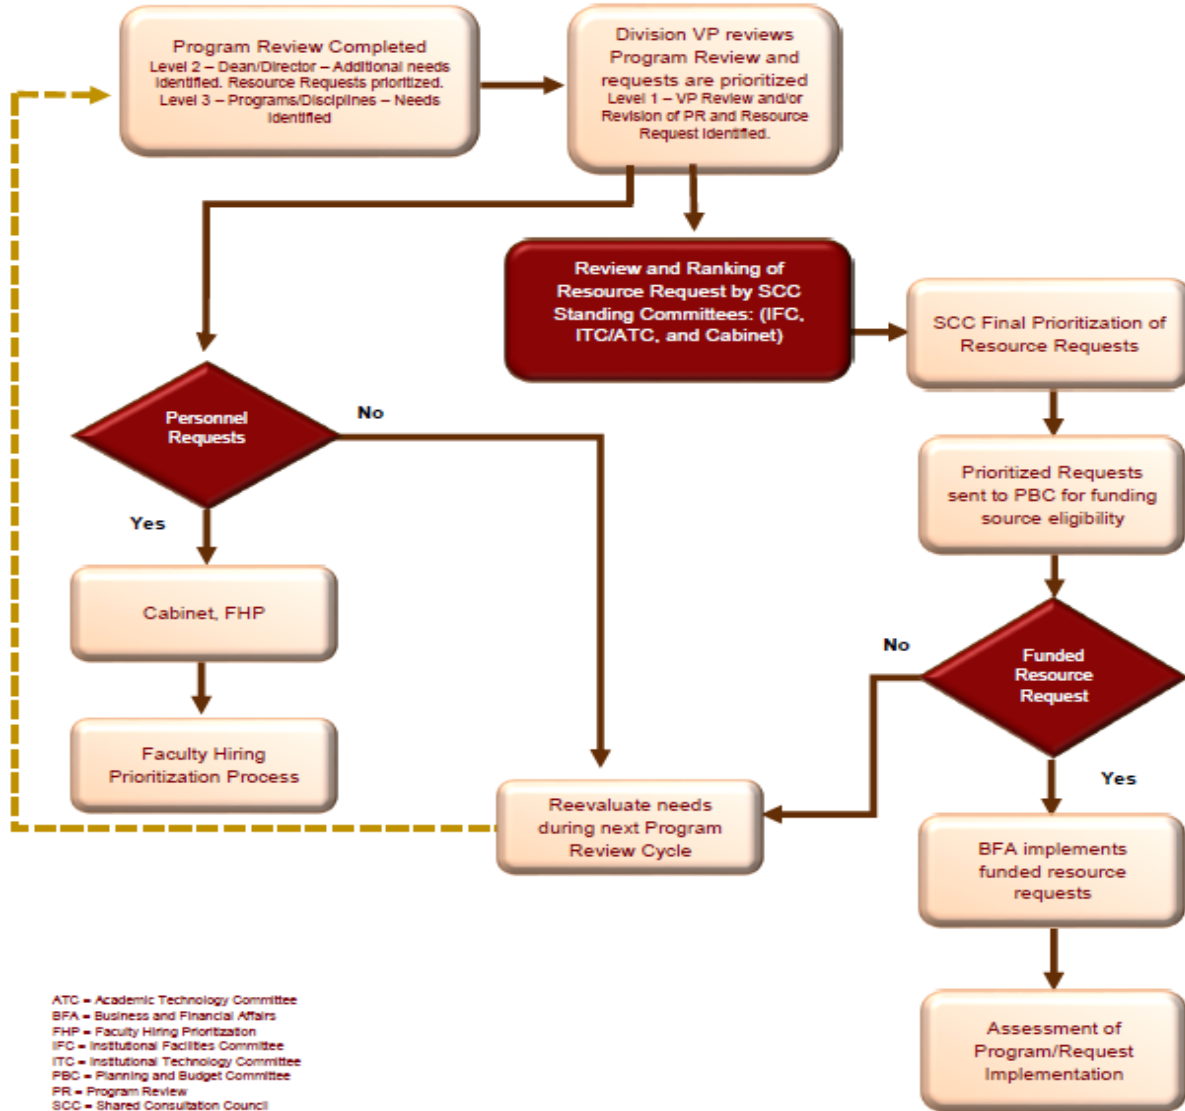

- Director of Finance
- Director of Institutional Research, Planning and Grants
- Institutional Technology designee
- 1 (one) Vice President (VP for Academic Affairs, VP for Human Resources, VP for Student Affairs – on a rotating basis)
- SCEA President or designee and faculty appointed by SCEA President
- Superintendent/President

The Committee is co-chaired by the Vice President for Business and Financial Affairs, Academic Senate President, and Dean of Institutional Effectiveness.

Program Review

Resource allocations align with the Southwestern Community College District mission and provide resources needed to accomplish Institutional Goals and Institutional Objectives. Since Institutional Goals reflect the College District's commitment to its mission, the purpose of the resource allocation process is to fund programs and services that both directly and indirectly promote student learning.

Prioritization of resources requests is a key step in the planning process providing a foundation for dialog and resource allocation analysis. Soon after program review reports are completed, a technical review of each report suggests improvements as well as verifies completeness. After program reviews are completed and reviewed, resource requests are prioritized by a sequence of steps for institutional review including, department or operational level. Further, specific standing committees of the Shared Consultation Council (SCC) also review and rank resource requests, and the final prioritization effort is conducted by SCC. The final prioritized list of requested resources is sent to the Planning and Budget Committee to determine appropriate funding sources and Business and Financial Affairs to implement the funding awards process accordingly. The process as well as the planning calendar are illustrated in the graphics on the following page.

Introduction – Fiscal Year 2018-19 Budget

The Adopted Budget book has been compiled to provide an overall accounting of the District’s anticipated financial position for fiscal year 2018-19. The Adopted Budget is based on the final State budget and includes revenues and ending balance figures that are then allocated to provide the operational budget for the District. The budget is developed to meet the needs identified within Southwestern Community College’s various planning documents including the Educational Master Plan (EMP), Facilities Master Plan (FMP), District Strategic Plan, District Technology Plan, and Program Review. It is important to note that the District has estimated certain revenues based on current information, but the State has the ability to make allocation changes throughout the year.

The book breaks down the budget into its key revenue and expenditure components including unrestricted and restricted funds, special revenue funds, enterprise funds, facilities funds, and capital construction bond funds. The financial information presented will also provide a comparative analysis of projected revenues and expenses to the current year’s estimated revenues and expenses.

State Budget Highlights

The State budget of 2018-19 continues to show an improved but slowing State economy, both the Governor and the Legislative Analyst Office continue to warn that the State must be prepared for the next recession. The economy is in its ninth year of expansion, which exceeds the State’s average growth cycle by four years. With this in mind, the State budget is being built with caution, and allocating resources into the rainy day fund. The State’s rainy day fund is on pace to reach \$15.9 Billion by July 2019. The rainy day fund will climb to an estimated \$13.8 Billion, its constitutional maximum level this year. Besides preparing for a future economic slowdown, the Governor has stated his budget priorities for California Community Colleges (CCCs) which include:

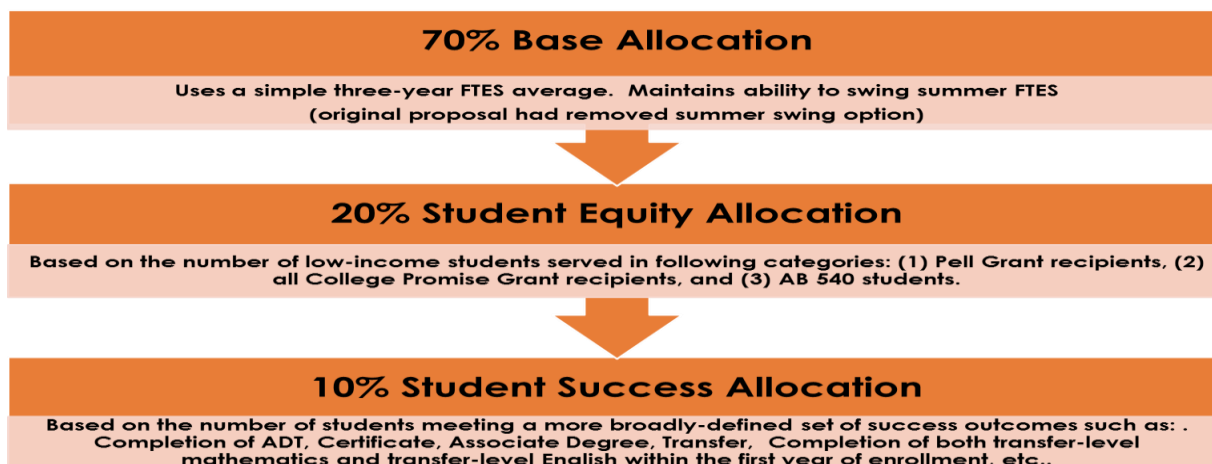

- Implementation of an equitable student-centered funding formula
- Establishment of a fully online community college to provide skills and credentials working Californians need to improve their social and economic mobility and move our state forward
- Provision of more flexible funding to colleges and consolidate some categorical programs into a larger flexible grant.

California Community College Budget Highlights

Although slowing, economic growth increased the Proposition 98 guarantee to \$78.4 Billion. For community colleges, the Governor’s 2018-19 proposal provides approximately \$800 Million in new Proposition 98 resources – of which approximately \$300 Million are in one-time funds. The Budget also honors the statutory split of 10.93%.

The 2018-19 State budget incorporates the new *Student-Focused Funding Formula*. The framework for the new apportionment allocation model includes District **Base Grants** contingent on FTES enrollment and College base allocation comprising **70 percent** of the formula; **Supplemental Grants which are** based on the number of low-income students districts enroll. The Supplemental Grants comprise **20 percent** of the total. **Student Success Incentive Grants** which include: the number of degrees and certificates granted; number of students who complete a degree or certificate in three years or less; and

funds for each Associate Degree for Transfer granted by the College. Student Success Incentive Grants comprise **10 percent** of the total as shown in the graphic below.

The formula will be phased in over three years, with the base allocation reduced to 60% of the total and the Student Success allocation increased to 20% of the total at the end of three years.

The three year implementation process as detailed below

<u>Year 1</u>	<u>Year 2</u>	<u>Year 3</u>
Base Allocation = 70%	Base Allocation = 65%	Base Allocation = 60%
Supplemental =20%	Supplemental =20%	Supplemental =20%
Student Success = 10%	Student Success = 15%	Student Success = 20%

For 2018-19, all California Community College Districts (CCCDs) will receive additional financial resources. CCCDs that financially benefit under the new formula, will receive those higher amounts, while districts that do not, will receive their 2017-18 allocation increased by the 2.71% cost-of-living adjustment (COLA). The new formula implementation also includes three years of hold harmless, where districts are guaranteed to receive at least the funding they received in 2017-18 plus any cost of living adjustment (COLA) received each year.

While the Governor’s budget proposal represents significant change for our CCCDs, the underlying framework provides additional resources to support overarching system goals aligned with the *Vision for Success* and recognizes the need for funding stability for our colleges. The new community college funding formula has vastly changed the way in which CCCDs are funded. Another key element of the 2018-19 budget is the creation of a new fully online community college to provide skills and credentials for working Californians who need to improve their social and economic mobility and move our state forward. Key highlights of the 2018-19 State budget relevant to California Community College System are:

State Allocation of Ongoing and One-Time Funds

ONGOING FUNDING	
Item Amount	Amount
Student-Centered Funding Formula	\$269 M
K-12 Component of Strong Workforce Program	\$164 M
Increase in Full-Time Faculty	\$ 50 M
California College Promise Program	\$ 46 M
Student Success Completion Grant Program	\$40.6 M
California Online Community College	\$20 M
Adult Education Data Systems	\$5 M
Financial Aid Technology Systems	\$5 M
NextUp Program (Old CAFYes program)	\$5 M
Course Identification Numbering System (C-ID)	\$685 K
Academic Senate	\$232 K
ONE-TIME FUNDING	
California Online Community College	\$100 M
Online Education Initiative	\$35 M
Part-Time Faculty Office Hours	\$50 M
Deferred Maintenance and Instructional Support	\$28.46 M
Financial Aid Technology Systems	\$13.5 M
Legal Services for Undocumented Persons	\$ 10 M
Mental Health Services and Training	\$ 10 M
Pathways in STEM Fields	\$ 10 M
Hunger Free Campuses	\$ 10 M
El Camino College Public Safety Training Center	\$ 10 M
Veterans Resource Centers	\$8.49 M
Projects in Connection with Economic and Workforce Development Program	\$8 M
Open Educational Resources	\$6 M
Reentry Grant Program	\$5 M
Career Readiness Training Program for Refugees	\$5 M
Norco College Early Childhood Education Center	\$5 M
Certified Nurse Assistant Training Programs	\$2 M
Backfill for Fire-Related Property Tax Declines	\$1.9 M
Re-appropriation of IEPI Technical Assistance Grant	\$1.38M
Los Angeles Valley College Family Resource Center	\$800K
Re-appropriation of Puente Funds	\$738K
K-12 CTE Pathways Programs	\$680k

Other State Budget Notes

The State continues to address budget shortfalls in PERS and STRS retirement systems by increasing the employer and employee contribution rates, thus working to ensure the system is solvent, and funds will be there for employees when they retire. The PERS employer contribution rate increased from 15.50% to 18.10%, and the STRS employer contribution rate increased from 14.43% to 16.28% in 2018-19. This results in an estimated ongoing cost increase to the District of \$1.2 Million for fiscal year 2018-19 alone. The rates will continue to climb each year until PERS employer contributions are at 25.20%, and STRS contributions are at 19.1% in fiscal year 2021-22 as shown in the graphic below. This increase will continue to reduce operational flexibility and the funding allocated to support instruction and student support services unless additional ongoing funding is allocated by the State to cover these increases. PERS and STRS Boards are also reviewing their anticipated rate of returns.

Revenues collected by the State which help support community colleges fluctuate based on a multitude of state and national political and economic conditions. The College must stay prepared to meet challenges presented by a dynamic and ever-changing economy and political climate. The new funding formula adds complexity to college funding. Student Success outcomes and varying funding amounts based on specific segments of the student population will create a more dynamic budget.

SECTION 1 - GENERAL INFORMATION

District Information and Divisional Structure

Established in 1961, Southwestern College is one of 112 public community colleges in the State of California and the only institute of higher education located in the southern portion of San Diego County. Nestled between the City of San Diego and the U.S.-Mexico international border on a 156-acre plot -- positions Southwestern to play an important role in the intellectual growth of the more than 400,000 residents that call South County home.

Serving approximately 20,000 students every semester, Southwestern College offers more than 320 associate degree and certificate options. A host of noncredit courses designed to enhance personal and professional development are also offered through the College's Continuing Education Department.

Whether pursuing an A.A. degree, preparing to transfer to a four-year college or university, or acquiring new occupational skills, students attending Southwestern College are given every opportunity to meet their educational goals.

Divisional Descriptions

Southwestern College is divided into five divisions and four additional offices. Each of these is headed by either the District Superintendent/President or an administrator reporting directly to the Superintendent/President. The five divisions are:

- Superintendent/President
 - Office of Communications, Community and Government Relations
 - Office of Institutional Effectiveness
 - Office of Institutional Technology Services
 - Office of Development and Foundation
- Academic Affairs Division
- Business and Financial Affairs Division
- Human Resources Division
- Student Affairs Division.

Office of the Superintendent/President - the Superintendent/President of Southwestern College serves as the Chief Executive Officer and provides District-wide leadership and direction to fulfill the institutional goals. The Office of the Superintendent/President contains the support staff for the Superintendent/President and Governing Board. The Superintendent/President oversees the integration of the following offices and divisions to ensure a seamless student experience.

Office of Communications, Community and Government Relations - is a one-stop shop for the latest news on the College, its programs, activities, faculty, staff, and students. The goal of the Office of Communications, Community and Government Relations is to enhance awareness, increase name recognition, and improve the image of the College – thereby generating enrollment and community goodwill for South San Diego County's only public institution of higher learning.

Office of Institutional Effectiveness - the mission of the Office of Institutional Effectiveness (OIE) is to guide an ongoing College-wide process of planning and annual outcomes assessment for the purpose of documenting that the College is achieving its mission and strategic priorities and that it is continuously improving its programs and services. Beginning with the College's mission, vision, and strategic priorities, the OIE works collaboratively to develop unit/division purpose statements and annual objectives and/or learning outcomes to support SCCD's mission and strategic priorities. Further, OIE assists in developing procedures, assessment methods and criteria for measuring the success of the unit/division learning outcomes. Also, OIE documents the results and use of results to show that the unit

is continuously improving its programs and/or services, utilizing the continuous Planning-Implementing-Evaluating (PIE) integrated planning process.

Office of Institutional Technology Services - the Institutional Technology Services Office, under the supervision of the Chief Information Systems Officer, oversees all instructional and other information support services to promote a supportive, student-centered learning environment. This office has recently taken over the institutional research function, to assist in creating cross functional relationships with the technology department to ensure reliable and valid research data.

Office of Development and Foundation – this division is responsible for development and fundraising activities that provide student scholarships, enhanced learning experiences for students, support District priorities and public relations in the community. Development and public relation programs include alumni relations, special events, individual and corporate giving, annual fund development, scholarship fund development, planned giving, private grants, as well as oversight and management of the SCCD Foundation.

Academic Affairs Division – this division oversees all academic programs at the four campuses, academic personnel, resources, instructional research, library and LRC, instructional labs, distance education, and instructional support services. Instructional services include the development of the schedule of classes, the College catalog, tutoring, and supplemental instruction. Academic Affairs is also responsible for the regional Small Business Development Center (SBDC), the San Diego Contracting Opportunities Center (SDCOC), and the San Diego International Trade Development Center (SDITC), all part of the regional economic development efforts. All of this is accomplished through collaborative work that promotes the success of all students by advocating and sustaining a college culture and instructional programs conducive to student learning and staff professional growth.

Business and Financial Affairs Division - this division administers property and contracts; legal services; budget and financial management and planning; the acquisition of supplies, equipment, and property; the protection of assets and persons; payroll; campus planning design and construction; facilities maintenance; public safety; food service; and bookstore operations; with a focus on collaboration, sustainability, transparency and customer service. In addition, the division provides the fiscal and administrative counsel to the management team of the College, assuring that the institution operates within the financial, legal and regulatory parameters determined by the Board of Trustees as well as local, state, and federal regulatory agencies.

Human Resources Division – this division provides quality service in all human resource functions. Their goal is to support the District in the programs and services it provides to students and the campus communities by performing with integrity, responsiveness, and sensitivity. Among the services the Human Resources Office offers are coordinating and facilitating recruitment for classified and academic staff, performance evaluations, and compensation matters. In addition, the office offers assistance and resolution of employee relation matters; negotiates, interprets and implements union contracts; provides orientations for new employees; maintains personnel records; and administers employee leave

benefits and other applicable fringe benefits. The office adheres to relevant State and Federal regulations. The division also houses the Title IX offices.

Student Affairs Division – through the division, a wide array of student support services are offered at all College locations. The College embraces a “one stop” approach to student support services as evidenced by the creation of the Cesar Chavez Student Services Center located in the heart of the Chula Vista main campus. The Student Services Center, known as the “One Stop” was intentionally designed to support the needs of the student along the educational pathway in one convenient location; this same philosophy extends to our higher education centers in providing support to students throughout their educational journey.

SECTION 2 - BUDGET AND FINANCIAL POLICIES AND PROCEDURES

Southwestern’s budgeting and financial planning, processes, and oversight are guided by Board Policy and Administrative Procedures. These procedures follow guidelines and recommendations from the State and are regularly reviewed and updated through collegial consultation processes and then routed to the Governing Board for review and approval. The main Board Policies used to guide fiscal and budget decisions and processes are on the following pages:

Delegation of Authority, Fiscal (BOARD POLICY 6100)

The Governing Board delegates to the Superintendent/ President the authority to supervise the general business procedures of the District to assure the proper administration of property and contracts; the budget, audit and accounting of funds; the acquisition of supplies, equipment and property; and the protection of assets and persons. All transactions shall comply with applicable laws and regulations, and with the California Community Colleges Budget and Accounting Manual.

No contract shall constitute an enforceable obligation against the District until it has been approved or ratified by the Governing Board. The Superintendent/President in consultation with the Vice President for Business and Financial Affairs shall make appropriate periodic reports to the Governing Board and shall keep the Governing Board fully advised regarding the financial status of the District.

Budget Preparation (BOARD POLICY 6200)

Each year, the Superintendent/President shall present to the Governing Board a budget, prepared in accordance with Title 5 and the California Community Colleges Budget and Accounting Manual. The schedule for presentation and review of budget proposals shall comply with state laws and regulations, and provide adequate time for Governing Board study.

Budget development shall meet the following criteria:

- The annual budget shall support the District’s institutional planning in accordance with Policy 2510 Shared Planning and Decision Making

- Assumptions upon which the budget is based are presented to the Governing Board for review
- A schedule is provided to the Governing Board by March 15 of each year that includes dates for presentation of the tentative budget, required public hearing(s), Governing Board study session(s), and approval of the final budget. At the public hearings, interested persons may appear and address the Governing Board regarding the proposed budget or any item in the proposed budget
- Changes in the assumptions upon which the budget was based shall be reported to the Governing Board in a timely manner
- Budget projections address long-term goals and commitments.

Budget Management

(BOARD POLICY 6250)

The budget shall be managed in accordance with Title 5 and the California Community Colleges Budget and Accounting Manual. Budget revisions shall be made only in accordance with these policies and as provided by law.

Governing Board approval is required for changes between major expenditure classifications as defined in Procedure 6250 AP. Transfers from the Governing Board reserve or unallocated funds beyond that reserve to any expenditure classification must be approved by a two-thirds vote of the members of the Governing Board.

- Transfers between expenditure classifications must be approved by a majority vote of the members of the Governing Board.

Budget Management

(ADMINISTRATIVE PROCEDURE 6250)

Total amounts budgeted as the proposed expenditure for each major classification of expenditures shall be the maximum expended for that classification for the school year, except as specifically authorized by the Board. The Office of Finance manages and oversees transfers between expenditure classifications.

Transfers may be made between major expenditure classifications in the approved budget. All transfers must be approved by the Governing Board, either by ratification or advance approval, as determined by College District operating procedures. Major expenditure classifications include the following:

- Academic Salaries
- Classified and Other Non-academic Salaries
- Employee Benefits
- Supplies and Materials
- Other Operating Expenses and Services
- Capital Outlay
- Other Outgo.

Transfers may be made from the reserve to any expenditure classification by action of the Governing Board, and must be approved by a two-thirds majority vote of the members of the Governing Board. The “reserve” is defined in District Policy No. 6210 BP as the Governing Board’s designated reserve plus the unallocated reserve of unbudgeted money to any expenditure classification. The Governing Board may decide to allocate a portion of the unallocated ending fund balance to support the SCC Prioritization List of Program Review Resource Needs or other needs identified through strategic planning.

The Capital Outlay Projects Fund may consist of multi-year projects. Governing Board approval for changes between these projects will be done on ratification basis, as long as expenditures do not exceed the approved project budget.

The College District will provide for an adequate management information system that gives timely, accurate and reliable fiscal information for planning, decision-making and budgetary control. Also, the College District will use its information system to link budget development, management, and planning with specific strategic goals and will track expenses to specific planning goals through its accounting systems and other technologies.

District Policy No. 6300 BP, “Fiscal Management,” and the accompanying procedure 6300 AP, provides guidelines for how significant changes in the fiscal environment, which may initiate the need for adjustments to the approved budget, are implemented.

Fiscal Management
(BOARD POLICY 6300)

The Superintendent/President shall establish procedures to assure that the College District’s fiscal management is in accordance with the principles contained in Title 5, section 58311, including:

- Adequate internal controls exist
- Fiscal objectives, procedures, and constraints are communicated to the Board and employees
- Adjustments to the budget are made in a timely manner, when necessary
- The maintenance of adequate management information systems that provide timely, accurate, and reliable fiscal information
- Responsibility and accountability for fiscal management are clearly delineated.

The Superintendent/President shall also establish procedures that satisfy the U.S. Education Department General Administrative Regulations (EDGAR) Second Edition for any Federal funds received by the College District.

The books and records of the College District shall be maintained pursuant to the California Community Colleges Budget and Accounting Manual.

As required by law, the Governing Board shall be presented with a quarterly report showing the financial and budgetary conditions of the College District.

As required by the Budget and Accounting Manual, expenditures shall be recognized in the accounting period in which the liability is incurred, and shall be limited to the amount budgeted for each major classification of accounts and to the total amount of the budget for each fund.

Investments

(BOARD POLICY 6320)

The Superintendent/President is responsible for ensuring that the funds not required for the immediate needs of the College District are properly invested. Investments shall be in accordance with law, including California Government Code Sections 53600, et seq.

This investments policy applies to all financial assets held by the College District except those, if any, that are specifically exempted by statute or local policy. This policy applies to all transactions involving the financial assets and related activity of all funds of the College District.

The primary investment objectives, in priority order, shall be:

- Safety
- Liquidity
- Return on investment.

Management responsibility for the District's investment plan is hereby delegated to the Superintendent/President, who may delegate to the Vice President for Business and Financial Affairs, the authority to establish written procedures for the operation of the investment plan consistent with this investment policy. No person may engage in an investment transaction except as provided under the terms of this policy and the investment plan established by the Superintendent/President or designee.

The Superintendent/President shall annually present to the Governing Board as information, the written investment plan related to this Governing Board Policy, and shall periodically update the Governing Board on the status of the District's investments.

Financial Audits

(BOARD POLICY 6400)

Bids will be solicited from auditing firms who have expertise in Government audits.

Specifications and requirements to be identified by the Vice President for Business and Financial Affairs and be in conformance with the Department of Finance Standards and Procedures for Audits of California Community Colleges, the U.S. General Accounting Office's publication "Standards for Audit of Governmental Organizations, Programs, Activities, and Functions" and the American Institute of Certified Public Accounts (AICPA).

An auditing firm's contract shall be for no longer than five years.

The Vice President for Business and Financial Affairs will review bids and recommend to the Superintendent/President the audit firm to be submitted to the Governing Board for approval.

SECTION 3 - COLLEGE BUDGET INFORMATION

Fund Accounting, Measurement Focus & Basis of Accounting

The community college fund structure presented here is based largely on concepts and principles contained in Governmental Accounting and Financial Reporting. This structure allows districts to establish any number of funds for internal reporting but requires that all accounts be consolidated for external financial reporting purposes. Fund accounting, therefore, is used as a control device to separate financial resources and ensure that they are used for their intended purposes with the fund as the basic recording entity for reporting specified assets, liabilities and related transactional movements of its resources.

Generally accepted accounting principles further require that all accounts reported within a single fund group use the same "basis of accounting" for timing the recognition of revenues, expenditures and transfers. For financial reporting purposes, the District is considered a special purpose government engaged only in business-type activities. Accordingly, the District's financial statements have been presented using the total economic resources measurement focus and the accrual basis of accounting. The District records revenues and expenses when they occur regardless of the timing of the related cash flow.

Basis of Budgeting

The District budget is a plan of proposed expenditures for operations and estimated revenues for a given period of time called a fiscal year. The budget represents the operational plans of the District in terms of economic decisions to meet its needs, commitments and planning goals. The budgetary accounts have been recorded and maintained in accordance with the Chancellor's Office of the California Community College's Budget and Accounting Manual.

The annual budget is built to support the District's mission statement and Educational Master Plan. Assumptions upon which the budget is based are presented to the Governing Board for review. Unrestricted general fund reserves are defined in Board Policy 6210 General Fund Reserves which states: The District shall maintain a general fund budgeted reserve of 7% of unrestricted fund adopted budgeted expenditures to provide for economic uncertainties. Expenditures from this reserve require the approval of the Governing Board. The policy shall be reviewed annually, any material changes in any assumptions upon which the budget was based are reported to the Governing Board in a timely manner.

Budget projections address long-term District goals and commitments. A budget calendar is established and approved by the Planning and Budget Committee, including information for the dates of the preliminary, tentative and final budget presentations. This past year, additional budget workshops were

held at the main campus and all of the College higher education centers to review community college funding formula options and the impacts to the system and Southwestern College.

The final Adopted Budget is due no later than September 15. A public hearing on the final Adopted Budget shall be held on or before September 15. The September 15 deadline may be extended when adoption of the State budget is delayed. On or before September 30, the District shall complete the preparation of its adopted annual financial and budget report and submit a copy to the Chancellor’s Office on or before October 10.

The Planning and Budget Committee involves the appropriate groups in defining a consultation process for budget development. The Vice President for Business and Financial Affairs is responsible for the timely submission of all financial forms, including the 311 forms required by the Chancellor’s Office.

The District’s budget development and management process exhibits the following budgetary principles:

- Ensure transparency in the budget process
- Plan and budget for contractual obligations and State requirements
- Ensure short term and long term budget sustainability
 - One-time funds used for one-time expenses
 - Consider ongoing costs of new commitments
 - Develop long range plan to address future liabilities
- Maintain reserves for future uncertainties
- Ensure short-term and long-term budget sustainability
- Budget FTES based on realistic projections.

SECTION 4 - FINANCIAL ASSUMPTIONS AND INFORMATION

State Budget projections included in Southwestern Community College District Budget

Based on the State Budget Act, the following assumptions have been built into the Southwestern Community College District Adopted Budget as identified in the table below. Allocation processes for some of the State’s initiatives have not been identified yet, so the impact to SCCD is listed as to be determined (TBD). Other allocations will remain at the State level and will not be allocated to College sites, so are not included.

State Budget Act Highlights and Impacts to Southwestern College

Ongoing Funds			
Item	2018-19 State Budget Act	SCCD's Estimated allocation based on Proposal	Notes
Cost of Living Adjustment (COLA)	\$173.1 M (2.71%)	\$2,509,621	Cost of Living Adjustment (COLA applied to unrestricted general fund revenues). Amount based on Advanced apportionment from the state.
Base Augmentation	\$175 M (plus \$35 Million one-time)	Included as part of our base allocation	To support transition to a new equity and outcomes focused funding formula. Funding is to be used to fund new Student Focused funding formula harmless to ensure each college receives at least what they did in 2017-18 plus COLA.
Enrollment Growth	\$59.6 M (1.00%)	\$0	Estimated 0.5% minimum growth allocation totaling approx. \$336,913 possible, but must be earned. Based on current trends, growth would be difficult to achieve so it is not included in the budget.
California Online College	\$20 M	No Increase, this is a system allocation	Establish a fully online community college to provide critical educational and economic opportunities to specified adult working learners.
California College Promise Program	\$46 M	\$601,518	Funding to support the implementation of the California College Promise (AB 19). The Executive Summary specifically calls attention to the statutory structure of AB 19, which authorizes colleges to spend Promise funds on an array of activities in support of student access and completion goals.
Full-Time Student Success Grant and the Completion Grant	\$40.7 M	\$3.07 M	Funding to support the consolidation of the Full-Time Student Success Grant and the Completion Grant programs. Grant to provide \$649 per semester to qualifying students who enroll in 12 to 14 units and \$2,000 per semester to qualifying students who enroll in 15 or more units per semester.
Financial Aid Technology	\$5 M	\$56,538	For implementation of new financial aid system improvements at the colleges.
Full-time Faculty Hiring	\$50 M	TBD	Funds to hire new full-time faculty for community college districts to move toward meeting the 75-percent full-time faculty target. Funds have yet to be allocated by the state.

State Budget Act Highlights and Impacts to Southwestern College (continued)

One-Time Funds			
Item	2018-19 State Budget Act	SCCD's Estimated allocation based on Proposal	Notes
Online College	\$100 M	No Increase to SCCD, this is a system allocation	Establish a fully online community college to provide critical educational and economic opportunities to specified adult working learners (one-time).
Online Education Incentive Grants	\$ 35 M	TBD	An increase of \$35 Million one-time for community college districts to develop online programs and courses that lead to short-term, industry-valued credentials, or enable a student enrolled o seek continued education through pathways offered by an existing community college. Application and award process.
Physical Plant & Instructional Equipment	\$28.46 M	\$366,809	Proportional Share. Allocation to be divided between Instructional Equipment and Library Materials (one-time).
Financial Aid Streamlining and Modernization	\$13.5 M	\$152,653	One-time funds for implementation of new financial aid system improvements at the College.
Part-time Faculty Office Hours	\$50 M	\$75,000	Allocation based on the ratio of compensated office hours throughout the state. College estimate is based on prior year amounts received.
Open Educational Resources	\$6 M	TBD	This allocation is intended to expand open educational resources across colleges to combat the high cost of textbooks. Today, textbooks comprise an estimated 40% of the total cost of attendance at community colleges.

Southwestern Community College District’s Budget Building Assumptions

- Develop a balanced Adopted Budget for 2018-19 based on the 2018-19 State Budget
- Include the COLA percentage of 2.71% (\$2.5 M)
- Do not include growth funds in the 2018-19 budget
 - We will be coming out of stability, and will be implementing the new funding formula
- Allocate new ongoing funds to pay for increased ongoing costs first
- Use new ongoing revenue to fund ongoing cost increases
 - PERS/STRS, health care, categorical backfill, new facility operational costs
- Use one-time funds for one-time purposes
 - Physical Plant and Instructional Equipment funds will be allocated to fund Instructional Equipment and Library Materials needs

- Include an emergency contingency fund within the Superintendent/Presidents budget using \$1 Million of 2017-18 fiscal year ending balance. The remainder of the ending balance will be added to the reserve.

Full-time Equivalent Students (FTES) Goals and Analysis

A primary source of State funding is allocated based on full-time equivalent students. In 2015-16, the District decided to enter into stabilization for the year, and strategically pushed all of the FTES earned during summer 2016 into the 2016-17 fiscal year. Stabilization allowed the District to miss its FTES base in 2015-16 without receiving a reduction in funding in the initial year of reduction. The District completely restored its FTES base in 2016-17, and achieved growth climbing from 15,410 FTES to 15,877 FTES for the year. The District was back in stability again in the 2017-18 fiscal year, having moved all of summer 2017 back into fiscal year 2016-17 to achieve 15,877 FTES. The District has not included any growth funding in the 2018-19 Adopted Budget as we align our annual FTES projections with the new State funding formula requirements and our ability to grow and generate additional FTES within the new guidelines. The District is projecting it will earn approximately 14,500 FTES in 2018-19.

FTES projections may change throughout the year based on any adjustments provided by the State. Below is a table which highlights the FTES earned and projected to be earned by the District. Amounts shown below are rounded to the nearest whole number.

Fiscal Year	Goal	Claimed	Description
2014-15	15,428	15,410	Growth
2015-16	15,410	13,767	Stability year
2016-17	15,594	15,877	Growth
2017-18	15,594	13,318	Stability year
2018-19 (estimate)	14,500	TBD	Hold Harmless

Revenues

The District receives revenue from numerous sources that are categorized into fund groups as defined by the California Community College Budget and Accounting Manual. The main fund group is the General Fund which is used to account for transactions that cover the full scope of District operations. The General Fund is divided into two sub groups: Unrestricted General Fund, and Restricted General Fund.

The Unrestricted General Fund is used to account for resources available for the general purposes of District operations and support of its educational programs. The Restricted General Fund is used to account for resources available for the operation and support of the District educational programs that are specifically restricted by laws, regulations, donors, or other outside agencies as to their expenditure.

A detailed comparison between the 2018-19 general fund revenues and expenses as compared to prior years is provided in the budget detail pages 30-42. A listing and description of the major sources of revenue for the general fund are provided below.

Unrestricted General Fund Revenue and Expenses

Unrestricted General Fund base revenue includes Principal Apportionment, Education Protection Act revenues, and the maintenance of full-time faculty hiring funds for a total of \$61.83 Million; property tax and redevelopment revenue of \$29.02 Million; and enrollment fees which are estimated to be \$4.44 Million. The total base revenue for fiscal year 2018-19 is estimated at \$95.29 Million. As stated earlier, growth funds are not included in the 2018-19 Adopted Budget revenues.

The District earns much of this general fund, unrestricted revenue (called base revenue) based on the size and number of colleges and approved education centers it operates, and the number of full-time equivalent students it serves. Southwestern Community College District is a mid-sized single college district with three approved centers. The District is estimating it will earn credit and non-credit FTES of 14,500, will not include any growth funding for 2018-19. The new funding formula will provide different levels of support based on the type of instructional program the students are in. Below is the estimated rate per FTES based on the new approved formula.

Base FTES			Special Admit Students FTES	Inmates in Correctional Facilities FTES	
Credit	Noncredit	CDCP	Credit	Credit	Noncredit
\$ 3,727	\$ 3,347	\$ 5,457	\$ 5,457	\$ 5,457	\$ 3,347

Federal Revenue is currently the smallest component of the unrestricted fund budget, totaling \$216,600. The Federal component of the unrestricted fund includes:

- Job development funds of \$25,000
- Federal Work-study Administration of \$16,800
- Pell Grant Administrative Allowance of \$28,000
- Supplemental Educational Opportunity Grant Administration Allowance of \$16,800, and a variety of other Federal Revenues Sources totaling \$130,000.

Most of the Federal funding within the unrestricted general fund is allocated to offset costs the District incurs administering Federal programs, grants and requirements.

Other State Revenue makes up \$3.25 Million of the unrestricted general fund revenue. This category includes:

- College Promise (replaces Board of Governors Grant) 2% Fee Waiver revenue, which is estimated at \$267,803. This revenue is provided to reimburse the District for fees that would have been received from students had the State not waived their enrollment fees
- Part-time Faculty Allocation is estimated at \$369,866. This revenue is provided to help equalize part-time faculty pay scales and also includes estimated reimbursement levels for office hours and other benefits provided to part-time faculty
- Unrestricted Lottery proceeds are estimated at \$2.18 Million. This revenue is considered part of the core operational budget, and calculated at \$151 per FTES using 14,500 FTES projection
- Mandated Cost Reimbursement is estimated at \$423,545. This block grant is used to cover State compliance costs incurred during the fiscal year. This is calculated at \$29.21 per FTES at 14,500.

Other Local Revenue is estimated at \$1.91 Million, and includes unrestricted revenues that are internally generated by the District. This revenue is comprised of the following sources:

- Interest income of \$280,679. This is revenue the District projects to earn during the course of the year through interest paid on funds deposited within the County Treasurers Office and financial institutions. This process follows Governing Board Investment Policy 6320 referred to earlier
- Other Student Fees are estimated at \$206,048. This revenue includes Board approved student fees
- Tuition fees are estimated at \$1.18 Million. This revenue is generated through charging nonresident student tuition fees of \$245 per class unit as approved by the Governing Board
- Child Care and other revenue, which is estimated at \$250,000 and is comprised primarily of user fees collected by the child development center, and proceeds generated from the sale of District surplus property.

The estimated unrestricted revenue based on all of the sources listed above totals \$100.68 Million. This revenue is the primary source of funding used to support District operations and is detailed on page 38.

Fund Balance – Unrestricted Fund

Fund balance is the difference between fund assets and fund liabilities in a given year. It is the net assets, or available resources of a fund at year end after all financial obligations for the year have been paid. The current Governing Board policy for the District is to maintain a minimum of 7% fund balance of the unrestricted general fund expenditure budget. These levels are set to provide protection against any unforeseen economic changes that could have a significant impact on the District's operations. The Governing Board reviews this annually and has the opportunity to adjust this fund balance requirement.

At the end of fiscal year 2016-17, the unrestricted general fund balance was \$12.56 Million or 13.18 % of the total unrestricted general fund expenditures. Of this \$12.56 Million in unrestricted general fund balance identified, \$6.7 Million was set aside to fund the required 7% Governing Board reserve for 2017-18, per Governing Board Policy 6210. A contingency reserve of \$1 Million was included to cover any unforeseen conditions or emergencies. The College finished the year strong with a remaining budget of \$5.3 Million above the prior year. The College is projecting an ending balance of \$18.3 Million for the end of 2017-18. The College will end the 2018-19 year with a fully balanced budget with no use of reserve funding, leaving the \$17.8 Million reserve which includes the Board contingency of \$7.1 Million. This is detailed on page 32 of the budget book. Although 2017-18 College expenses were very much in line with projections, the College received additional revenue that it had not projected at the beginning of the 2017-18 fiscal year. Increased revenues which are detailed on page 33 include:

- The College moved 283 summer 2017 FTES back into the 2016-17 fiscal year. The College received one-time funding from the additional FTES of \$1 Million in February of 2018.
- This movement of FTES in 2016-17 also increased the FTES base for 2017-18 from 15,594 up to 15,877. This base increase (again realized in February 2018) resulted in an additional increase of \$1.6 Million.

- This increased FTES also resulted in an increase in unrestricted Lottery proceeds, going from \$2.26 Million to \$2.78 Million
- An increase of student fees collected, going from a \$4.38 Million projection to a \$4.49 Million
- An increase in redevelopment revenue caused by the distribution of revenues from sales of multiple redevelopment properties held by the agency during the 2017-18 year.
- The State also removed the deficit factor, providing \$500,000 of additional revenue.
- Interest earned by the District on deposits went from a projection of \$85K to an actual of \$280,679.

Expenditures

The District expenditures are categorized based on required expense types identified within the California Community College Budget and Accounting Manual. Expenses are divided into two main categories. The first category is personnel costs which include salaries and benefits. The second category is operational costs which include supplies, equipment, contracts and services, facilities repair, transfers out to other funds, and a myriad of other non-personnel costs associated with operating the institution. These expenses are detailed on pages 36-39 of the budget book.

Personnel expenses are estimated to make up approximately 84.87% of the total projected District unrestricted general fund expenses, totaling \$86.29 Million. Personnel costs include full-time and part-time faculty, full-time and part-time classified employees, hourly contingent workers, administration and their related benefit costs. Benefit costs include statutory benefits, health and welfare, and retirement benefits for current employees; and retiree health benefits costs.

There are many vacant positions currently funded within the Adopted Budget. This reflects changes in personnel due to retirements, separations, and new positions that were added to support instruction, student services and District operations. At the time the Adopted Budget was compiled, the District budget contained 52 funded full-time and part-time vacant positions, totaling \$3.0 Million. Vacant positions currently in the Adopted Budget are listed within Appendix A, full-time contract. Many of these positions will have been filled by the time this book is published, and include new positions to maintain and service newly constructed buildings on campus.

Benefits have become a growing component of the personnel budget. As mentioned earlier, PERS and STRS employer benefit costs are estimated to increase by \$1.2 Million for fiscal year 2018-19. The hiring of vacant contract faculty, staff and administrators combined with their associated benefit packages also contribute to the benefit expense line.

Other expenses make up 15.13% of the total projected unrestricted general expenses, totaling \$15.38 Million. These expenses are further broken down into four major components which include:

- Supplies and materials expenses – These expenses are for instructional and non-instructional consumable supplies and materials used by the District to support operations
- Operating expenses – These are expenses related to contracts and services needed to operate and maintain the District and its operations. This group of expenses includes contract services; business related travel; memberships and dues; insurance; utilities; maintenance contracts; audit, legal and election costs; and banking fees and postage

- Capital Outlay expenses – These expenses are related to building and facility maintenance and improvements, capitalized equipment, and library books
- Other Outgo expenses – These expenses are related to student aid payments and reimbursements, and transfers to cover Public Safety costs. This also includes a \$1 Million emergency contingency using 2017-18 ending balance funds. This is why expenses appear to exceed revenues by \$1 Million.

Some of the more significant changes noted within the operations budget when compared to the prior year's Adopted Budget include:

- Continuing increases to the employee benefit lines. This includes retirement, medical and statutory benefit costs
- Increases to contract services which will include the new contracts required to maintain the Wellness and Aquatics Complex and the Math, Science and Engineering Complex, as well as scheduled contract increases
- Increases to District maintenance contracts. This includes software, equipment, and services that provide support to the entire District including the new buildings and systems that have come online due to construction
- A decrease to utilities costs as the District settled the majority of past utility expense and billing discrepancies with SDG&E
- Increase in audit, legal and election costs to cover the Board elections and term limit ballot initiative.

Total estimated unrestricted general fund expenditures total \$101.68 Million (not including the emergency reserve funds). The District budget is balanced for fiscal year 2018-19, with no structural deficit as detailed on page 35, 38, and 39; once the contingency reserve has been removed. The District does not anticipate utilizing this fund, but has included it as a budgetary precaution.

Other Issues of Note

There are several issues that have impacted, or have the possibility of impacting the District beyond this current year.

- The new California Community Colleges Funding formula has and will continue to have a dramatic impact on the current and future Southwestern College budgets. Funding allocations in future years will be more volatile as 20% of the funding will now be based on student success and achievement
- Consolidation of categorical programs will impact the way the College plans, implements and reports student success and equity initiatives. This large block grant funding process will provide the College with additional flexibility to make changes that will improve equitable student outcomes
- The 50% law stipulates that the District must expend a minimum of 50% of educational expenses on direct classroom instruction. Increased demand for technology and other non-instructional services create obstacles for the District in maintaining compliance with the 50% law
- Changes in attendance, service area population, and graduation rates from feeder schools all impact the District's enrollment and funding. The District must continue to monitor enrollment information and adapt to the ever changing educational needs of our students and the community.

Additional Fund Revenues and Expenses Included in the Adopted Budget**Restricted General Funds**

The Restricted General Fund is used to account for resources available for the operation and support of District educational programs that are specifically restricted by laws, regulations, donors, or other outside agencies as to their expenditure. Almost all restricted general fund revenue sources require that the funds be totally expended in the year that they are allocated, so there is very little carry over from prior years accounted for within this funding category.

Restricted General Fund Revenue

The restricted fund is made up of Federal, State, and local grants and categorical programs. A listing of the various funding sources is located on page 41. Restricted funds generated through Federal sources total \$3.45 Million. Funds generated through State sources total \$17.76 Million, and funds generated through local sources total \$4.92 Million. Total restricted general fund revenues totals \$26.13 Million. Restricted fund revenues are detailed on pages 40-42.

Restricted General Fund Expenses

Personnel expenses are estimated to make up approximately 67.33% of total projected District restricted general fund expenses, totaling \$17.60 Million. Personnel costs include full-time and part-time faculty, full-time and part-time classified employees, hourly contingent workers, and administration and their related benefit costs. Benefit costs include statutory benefits, health and welfare, and retirement benefits. Restricted funding expenses are listed on page 42.

Other expenses make up 32.67% of the total projected unrestricted general revenue expenses, totaling \$8.54 Million. These expenses are further broken down into similar components identified within the unrestricted general fund description which include supplies, operating expenses, books and equipment, and other payments to students.

Enterprise Funds

Enterprise funds are used to account for District operations that act as businesses where the intent is to recover, in whole or in part, the cost of providing goods and/or services to students, faculty, staff and the community. These funds are legally restricted, and are not directly related to SCCD's educational programs. District funds contained within this fund type include:

- Bookstore fund which contains the revenues and expenses derived from the operations of the College bookstore. See page 44
- Cafeteria fund is designated to encompass the revenues and expenses derived from the operations of the Cafeteria, Tradewinds Café, Concessions, the Time Out Café, and all moneys from pour rights, the sale of food and beverages, and catering services. See pages 45-49
- Civic Center fund which contains the revenues and expenses derived from the rental of District facilities. See page 50.

Capital Outlay Funds – Fund 41

Capital Outlay funds reflect the financial resources allocated for the purchase, construction, modernization, and scheduled maintenance of large capital outlay projects. Capital Outlay funds

accounted for within Fund 41 include State Scheduled Maintenance Funds, Proposition 39 Clean Energy Funds, Program Review and Redevelopment Agency Funds allocated to facilities maintenance and improvements. A listing of the specific projects related to each fund can be located on pages 55-56. Funds that are listed as unallocated have not been designated as of the approval of the Adopted Budget. The College will utilize its planning documents and processes to prioritize the allocation of these funds.

Proposition R – General Obligation Bond Funds

Measure R, is a \$389 Million Proposition 39 ad valorem general obligation bond, approved by area voters in 2008. These funds reflect the proceeds of the sale of bonds authorized and the expense for the construction, reconstruction and/or rehabilitation of facilities, including the furnishing and equipping of its facilities. The measure also includes the acquisition, or lease of real property for its facilities and construction management identified within the Proposition R ballot language. Projects from the College Facilities Master Plan (FMP) which have been funded are listed on pages 51-52 of this document.

Proposition Z – General Obligation Bond Funds

Measure Z, is a \$400 Million Proposition 39 ad valorem general obligation bond, approved by area voters in 2016. These funds reflect the proceeds of the sale of bonds authorized under the measure, and the expense for the construction, reconstruction and/or rehabilitation of facilities. The measure also includes the furnishing and equipping of its facilities, acquisition, or lease of real property for its facilities and construction management identified within the Proposition Z ballot language. Projects from the College Facilities Master Plan (FMP) which have been funded are listed on pages 53-54 of this document.

Associated Student Organization Trust

The Associated Students Trust Fund is used to account for moneys held in trust by the District for Associated Student Organization (ASO). Revenues are mainly derived from the sales of student activity cards, and the proceeds are used to support students and the operational costs of the ASO. See page 57.

Student Center Fee

The Student Body Center Fee Trust Fund is used to account for funds collected by the District from students to finance, construct, enlarge, remodel, refurbish, and operate the District's student center. Students are charged \$1 per credit hour and do not exceed \$10 per student per fiscal year. The fee may be implemented only if approved by two-thirds of the students voting in a valid election for this purpose. See page 58.

District Self-Insurance Fund

The District maintains all required insurance coverage. This fund is used to provide for payments in the event of insurance policy deductibles, losses or payments arising from self-insurance programs, and losses or payments due to non-insured perils. As the detail budget report shows, this fund has been rarely utilized over the last 4 years. See page 59.

Student Success and Completion Grant Funds

The Student Success Completion Grant (SSCG) is a financial aid program for Cal Grant B and C recipients attending a California Community College full-time (12 units or more). On top of the Cal Grant B or C award paid at community colleges, the Student Success Completion Grant pays full-time Cal Grant B or C recipients a maximum of \$1,298 annually at \$649 per semester for eligible students who enroll and attend 12 through 14.99 units per term and a maximum of \$4,000 annually at \$2,000 per semester for eligible students who enroll and attend 15 units or more per term. See page 60.

Other Post Employee Benefits

The District maintains specific benefits for retirees based on the employees' classification and date of hire. Other Post-Employment Benefits (OPEB) are comprised of medical benefits that the District is currently paying for retirees, as well as anticipated costs for current employees.

Accounting principles provide that the cost of retiree benefits should be "accrued" over employees' working lifetime. For this reason, the Governmental Accounting Standards Board (GASB) issued in June of 2015 Accounting Standards 74 and 75 for retiree health benefits. These standards apply to all public employers that pay any part of the cost of retiree health benefits for current or future retirees (including early retirees) whether they pay directly or indirectly.

To actuarially accrue retiree health benefits requires determining the amount to expense each year so that the liability accumulated at retirement is, on average, sufficient (with interest) to cover all retiree health expenditures without the need for additional expenses. There are many different ways to determine the annual accrual amount. The calculation method used is called an "actuarial cost method." Under most actuarial cost methods, there are two components of actuarial cost – a "normal cost" and amortization of something called the "unfunded actuarial accrued liability." Both accounting standards and actuarial standards usually address these two components separately (though alternative terminology is sometimes used). The normal cost can be thought of as the value of the benefit earned each year if benefits are accrued during the working lifetime of employees.

The estimated "pay-as-you-go" cost of providing retiree health benefits in the year beginning July 1, 2018 is \$878,834. The "pay-as-you-go" cost is a projection of annual amounts needed to pay the District's share of retiree health costs, including any implicit rate subsidy. Southwestern Community College District has established a GASB 43 trust for future OPEB benefits. The total OPEB liability as of June 30, 2017 was \$18,062,870, the actuarial value of plan assets at June 30, 2017 was \$4,227,557. This leaves a net OPEB liability (NOL) of \$13,835,313. The preliminary annual OPEB expense was calculated by our actuarial study at \$1,540,196 for fiscal year 2017-18.

On-Behalf of Payments

GASB Statement No. 24 requires that direct on-behalf payments for fringe benefits and salaries made by one entity to a third party recipient for the employees of another, legally separate entity be recognized as revenue and expenditures by the employer government.

The State of California makes direct on-behalf payments for retirement benefits to the State Teachers Retirement System (STRS) on behalf of all community college districts in California. The District recorded \$2,907,777 of revenues and expenditures for on-behalf payments in 2018.

FY 2018-19 Adopted Budget
2017-18 Revenue Comparison**

Description	2017-18 Adopted Budget	2017-18 Unaudited Actual	2017-18 Variance Amounts	Notes on Revenue Changes Impacting Ending Balance :
Principal Apportionment, Faculty Hiring and EPA	\$ 58,911,876	\$ 62,020,698	\$ 3,108,822	Increased revenue includes \$1 Million for additional 283 FTES claimed in 2016-17 by pushing summer 2017 back into the 2016-17 year. This movement of FTES in 2016-17 also increased the FTES base for 2017-18 from 15,594 up to 15,877. This base increase (again realized in February 2018) resulted in an additional increase of \$1.6 Million. The State removed the deficit factor at the end of the year resulting in an additional \$500K
Tax Relief Subvention	175,000	177,586	\$ 2,586	Receive slightly more in Tax Relief Subvention than anticipated, but overall tax revenue received is almost exactly what was projected
Tax Allocation, Secured	25,021,078	24,818,638	\$ (202,440)	Receive slightly more in Tax Allocation, Secured than anticipated, but overall tax revenue received is almost exactly what was projected
Supplemental Tax	500,000	698,808	\$ 198,808	Receive slightly more in Supplemental Tax than anticipated, but overall tax revenue received is almost exactly what was projected
Tax Allocation, Unsecured	700,000	771,109	\$ 71,109	Receive slightly more in Unsecured Supplemental Tax than anticipated, but overall tax revenue received is almost exactly what was projected
Enrollment Fees	4,387,301	4,494,116	\$ 106,815	Received more in student revenues than State had projected due to the FTES increase change made in 2016-17 as detailed above
Redevelopment and Residual	750,000	1,148,589	\$ 398,589	An increase in Redevelopment and Residual revenue created by sales of multiple redevelopment properties held by the agency during the 2017-18 year. When agencies properties are sold, the amounts are allocated to the various agencies on a proportional basis
Total Base Revenue	\$ 90,445,255	\$ 94,129,544	\$ 3,684,289	
Job Development	\$ 25,000	\$ 25,000	\$ -	
Federal Work Study Admin Allowance	18,000	19,485	1,485	Small access allocation
Pell Grant Admin Allowance	28,000	33,335	5,335	Small access allocation
Supplemental Education Opportunity Grant Admin	16,000	21,732	5,732	Small access allocation
Federal Other	130,000	136,974	6,974	Small access allocation
Total Federal Revenue	\$ 217,000	\$ 236,526	\$ 19,526	
College Promise Grant (replaces BOGG) (2%)	\$ 262,833	\$ 262,883	\$ 50	
Part Time Faculty Allocation and Office hrs.	373,025	397,608	\$ 24,583	The difference is within the amount the College received for part time faculty office hours and health insurance. These reimbursements are based on a ration of statewide costs. We had estimated to receive \$50K for office hours and health benefit reimbursement and we received \$80K. We also received slightly less for part-time faculty compensation than was budgeted
Lottery Proceeds	2,276,724	2,784,957	\$ 508,233	Received more in unrestricted lottery proceeds than the State had projected due to the FTES increase change made in 2016-17 as detailed above. Also overall allocation was more as the State had us use an estimated \$146 per FTES in 2017-18. We have used a rate of \$151 per FTES for 2018-19
Mandated Costs	431,870	879,038	\$ 447,168	The College received a one-time allocation of \$435K for mandated cost from the State in November that we had not included in the budget.
Other	0	5,275	\$ 5,275	
Other State Revenue	\$ 3,344,452	\$ 4,329,761	\$ 985,309	
Interest Income	\$ 85,000	\$ 302,432	\$ 217,432	Interest earned by the District on deposits went from a projection of \$85K to an actual of \$302K. Interest rates have been on the rise, and apportionments are no longer delayed. We have adjusted this amount for 2018-19
Other Student Fees	206,048	237,287	\$ 31,239	The College programs collected slightly more student fees than they had projected for 2017-18. All student fees are collected and used by the departments
Tuition Fees	1,397,000	1,126,356	\$ (270,644)	We received below our projections for 2017-18. Although we have a fairly substantial increase in non-resident fees, overall collections were flat
Local - Child-Care and Other	250,000	888,624	\$ 638,624	Major reason for this changed was due to a reclassification of \$457K of Redevelopment funds from fund 41 to fund 11. Increase also includes surplus property sales revenue and a donation from the Foundation for a software purchase
Transfer from Parking		-	-	
Transfer from Bookstore		-	-	
Transfer from Capital Outlay/Insurance Funds		-	-	
Other Local Revenue	\$ 1,938,048	\$ 2,554,699	\$ 616,651	
Total Revenue	\$ 95,944,755	\$ 101,250,530	\$ 5,305,775
